* 7th & 8th Grade — 1st and 2nd place tied at the same score. Placement was determined by tie-breaker score, which is calculated by summing empirical difficulty weights (1 – success rate) for each correctly answered problem. Harder problems that fewer participants solved contribute a higher weight. **Evan Johnston:** 11.7000 | **Youhe Wang:** 11.6000

Congratulations to all participants for a fantastic competition!
